

Test Execution Home

Greetings testers and developers! Explore the topics below to learn more about Test Execution with Continuous Testing and the SeeTest platform.

This space is dedicated to those of you who already have created test suites, driven by Selenium, Appium, Espresso or XCUITest.

Here you can find detailed information on :

1. Migrating your test suites to Continuous Testing platform
2. Parallel test execution on Web \ Mobile devices
3. Viewing and analyzing test results

And more aspects \ tips that are related to automated Test Execution
