

Inviting Members to Your Project

You can invite other users to join your project. As they join your project, they gain access to applications in the project and can view test reports for tests that were run under the project.

Inviting Members to a Project

1. Navigate to <https://accounts.seetest.io/my-team>.
2. Click on **Invite**.
3. In the popup, enter the email that the team member used to signup.
4. Click on **Invite**.

The team member will receive an email asking them to confirm the invitation. Once they confirm, they will be added to your project.

You will be able to see the list of project members under **Team Members**.

A screenshot of the 'Invite new member' popup form. The form has a title 'Invite new member' and a text input field labeled 'Enter an email'. Below the input field is an orange 'Invite' button. At the bottom right of the form is an orange 'Close' button.
